

FREE Books, Science Kits, + More!

Clackamas County Vector Control has free children's books, hands-on science kits, curriculum, and more. Inspire all ages to think about disease vectors like mosquitoes. Explore their fascinating life cycles and adaptations through hands-on experiments and other activities.

Serious diseases such as West Nile virus have spread into Oregon, and our students and families need to understand how to keep our communities safe.

Learn more at fightthebites.com/education and get **FREE** resources adaptable for grades preK-12:

- **Life cycle kits** which include live specimens, magnifying devices, pipettes, and more
- **Engaging curriculum** designed to meet the Next Generation Science Standards + Common Core standards
- ***Beware of Mosquitula!*** This humorous new book teaches kids how to avoid the mistakes of the zany zombies and FIGHT THE BITES!
- Posters, apps, multimedia presentations, and videos
- Ways to integrate the arts

Veteran educator Rick Reynolds, M.Ed., is happy to lead hands-on workshops for educators or students.

Ask us about tote bags, calendars, magnets, and stickers, too!
